- 25.** Where a club has two or more teams competing in the League, players are not allowed to substitute downwards. Members of lower teams are allowed to substitute up twice to each team above them. They may not substitute up more than twice. The substitution rules apply **equally** whether the teams involved be in the same division or two different divisions.
- 26.** For the purposes of the substitution rules, first, second, third and subsequent teams will be identified by the average rating of the players on those teams. Where a club uses a pool of floating substitutes from time to time to fill in for absent team members, the substitution rules outlined above still apply. In particular, such floating substitutes should be aware that, having once played for a lower team, they may play for a higher team only twice. They may not play for a lower team than the team they first play for.
- 27. Transfers**
